Concentration Game

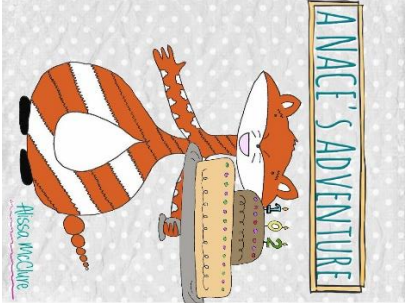

DIRECTIONS: Print the cards above and the cards below and then cut them out. Tape or glue the blank sides of the cards together so you cannot see the words through the paper.

Lay the cards out on a table or the floor so the pictures are facing up and the words are down.

Take turns turning over two cards. If the words on the two cards rhyme, you have found a match! Keep the match and go again. Your turn ends when you turn over two cards that do not rhyme. Return the unmatched cards to their original positions. Now the next player will do the same.
